### A STUDY ON PHONOLOGICAL WORD RECODING OF YOUNG JAPANESE EFL LEARNERS

Yu Kobayashi

Time :

December 2nd 6:00 p.m.

Place:

17302

The purpose of this study is to investigate the phonological word recoding ability of young Japanese EFL learners, which is recognized as a basic skills crucial for early literacy. This convergent mixed method research revealed the process of how the sixth graders acquired the skill and identified the characteristics of their errors.
